EXPORTATION during the past week of \$340 in gold and \$237,889 in silver from New York, is not a very strong proof that the calamities predicted by the enemies of silver are likely to occur.—Chicago Mining Review.

THE continued coinage of the silver dollar, or some other cause, is evidently driving gold out of the country, as the exports of currency from New York during the past week show the alarming amount of \$340 in gold, while only \$27,889 in silver were shipped.—Mining Review.

THERE are many indications to show that capital is cautiously seeking investment in mines and mining. The beginning of the returning tide of prosperity in this great field is already visible in the steadily increasing interest everywhere manifested and the growing confidence in the perance and profitability of well managed mining operations.—Chicago Mining Review.

THE latest experiment in town-building is that of Clark Whittier, a brother of the poet Whittier. The former has purchased a large tract of land in North Carolina. The Atlanta-Constitution contains this notice of the enterprise: Clark Whittier is going ahead in the right way to found a town. He purchased 60,000 acres of land in Swain county, with a view of establishing saw mills, laying out a town, dividing up large tracts into small farms and settling up the country. The other day a public meeting was held on the site of the proposed town of Whittier, and a motion was made and adopted that operations be opened upon the principles of the word of God, including all morality, and especially temperance and prohibition of the strongest form. A motion was then adopted to secure, if possible, the names of all property holders within ten miles of Whittier to a pledge prohibiting forever the sale of intoxicating liquors. No tract of land will be sold without a condition whereby the purchasers agree that in case spirituous or malt liquors are sold, imported, or manufactured for use, except for medicine or for arts, the owner shall surrender the land to Clark Whittier, or his legal representative, on the tendering of the purchase money. Whittier has been for several years a resident of Riverside, San Bernardino county. He is Quixotic as demonstrated by a number of transactions. It is doubtful if he makes a success of the present enterprise.

King Milan Holds Out.

St. Petersburg, Oct. 29.—The Journal de St. Petersburg, commenting on the Roumelian question, says Prince Alexander appears to ignore the fact that his submission to the powers is a duty created by the treaty of Berlin, and sees no intention on the

part of Bulgaria to return to the status quo ante. It regrets the action of Serbia and Greece in ordering formidable armaments, and declares that Russia more than any other power, must prevent fratricidal contests in the Balkans. The Journal is most pronounced in its denunciation of Bulgaria for having brought about the present state of affairs, and says, "the powers are unanimous in the desire to restore the status quo ante, and although such action is bristling with obstacles and pitfalls, this unanimity justifies the hope of success."

London, Oct. 29.—King Milan gave as his reason for refusing to receive a Bulgarian envoy that diplomatic relations between Bulgaria and Serbia had been severed.

The Standard's Vienna correspondent says that all the powers are agreed on the main points of the solution of the Balkan problem, but that the attitude of Serbia is doubtful.

Advices from Beyrout say that 12,000 Turkish reserves have been raised in Syria and that 4,000 are still waiting to embark for Crete. A dispatch to the Times from Nissa says, "Preparations for war are incessant. Significant movements of troops are being made. Correspondents are not allowed to give details."

Constantinople, Oct. 29.—The Porte has issued a circular, inviting the powers to a conference in Constantinople, to be held for the exclusive purpose of settling the Roumelian difficulty.

BELGRADE, Oct. 29.—The diplomatic corps in this city has addressed a note to the Serbian government with a view of arresting further belicose action on the part of Serbia.

Fleeing from Burmah.

Rangoon, Oct. 29.—Two steamers have left for Mandalay. They will bring away two hundred Europeans residing in Burmah. It is believed that the Bombay Trading Company's officers will be able to protect themselves until British troops arrive. Many of the officers have already been recalled.

CALCUTTA, Oct. 29.—The contingents of the Indian army from Madras and this city are being rapidly transported to Rangoon, where the expeditionary force is being assembled for the invasion of Burmah. The Burmese government is actively preparing to resist the advances of the British troops. Engineers are busily engaged in erecting earth works, planting torpedoes, building fire rafts, loading hulks with stones and sinking them at convenient points in the Irrawaddy river, and placing chains across the river to obstruct its navigation. Kyuyung Atwin Woon has been appointed to the command of the forces on the frontier, and he has been ordered to prevent the passage of the British at all cost. King Theebaw is disappointed because a majority of the cabinet officials at the council held to consider the situation favored a peace policy. After the council the principal peace advocate, Kenwoon, telegraphed the Burmese delegates at Paris the details of the discussion of the council. Notwithstanding the active preparations of the Burmese forces, British officers expect that the campaign in Burmah will be a short one.

British Politics.

London, Oct. 29.—Sir Michael Hicks-Beach, chancellor of the exchequer, who was to speak at Bristol tomorrow, has postponed the engagement because a cabinet council has been called for that day.

Prof. Tyndall has written a letter in which he says: "England has been governed by a clever, but irresolute group of men, who advanced by impulse, and retreated as if frightened at their own audacity."

English Farmers' Demands.

LONDON, Oct. 29.—The English Farmers' Alliance has adopted a resolution stating that to avert the ruin of the present race of farmers, landowners must forthwith reduce the rents of farms and the government must formulate a measure which will prevent

the raising of rents on the improvements of tenants.

Labouchere Denies It.

LONDON, Oct. 29.—Labouchere declares that the communication signed "Mansfield," published in St. Stephen's Review, challenging the editor of that journal to a duel on behalf of Mr. Labouchere to be entirely unauthorized and says it is a simple invention of the writer.

Reforms in China.

LONDON, Oct. 29.—Advices from China say that Li Hung Chang has recently paid a long visit to the court at Peking, where he was received with high favor. It is said that he has arranged important reforms, which augur well for the progress of the country.

Riel's Appeal Dismissed.

LONDON, Oct. 29.—The privy council has dismissed the appeal of Louis Riel, the leader of the half-breed insurrection in Canada, against the sentence of death passed upon him by the Canadian courts.

Fatal Railway Accident.

GENEVA, Oct. 29.—A train on the railway which ascends the Rigi Mountain fell into a ravine yesterday. One person was killed and twenty-five others were dreadfully injured.

Russia's Pacific Coast Trade.

St. Petersburg, Oct. 29.—Russia, desiring to revive trade in her Pacific coast possessions, has authorized two annual fairs to be held near the Korean frontier.

The new express wagon for M. Ashman, being built by Mr. C. E. Page, is almost completed, and is a handsome piece of work.

For the finest brands of wines, liquors and cigars, and good treatment, just drop into Frank Broad's saloon, on Allen street, above Sixth. Music, singing, and, in fact, just the place to spend a pleasant evening.

C. R. Ayers, who came in from the Cananea copper camp last evening, reports renewed activity in that camp and states that there will be a large amount of work done at that place during the coming winter.

Messrs. S. Tribolet and A. Bauer have bought out the Tombstone Wholesale Butcher Association and on and after the first of November will conduct the same, furnishing nothing but the best of beef, mutton, veal and pork.

Lieutenant Cook, a young army officer who lately arrived from the east, and has been stationed Gualupe canyon, was brought to this city helplessly crippled with the rheumatism. He will be removed to Huachuca as soon as he is rested.

This morning a little son of Mr. Ingalls, the milkman, was riding down Allen street on a burro, and when opposite the hotel a dog rushed out at the burro, causing the animal to shy and throw the little fellow off onto his head, stunning him for a few moments, but beyond a few bruises the little fellow was uninjured and was soon conveyed to his home.

H. Schmeiding, the pioneer jeweler of this city, desires us to state to the public that he has now on the road the largest assortment of holiday goods, jewelry, etc., that has ever been brought into the Territory, and as they have been bought in the markets of San Francisco and New York, for cash, he will be able to sell cheaper than ever was known before. Do not purchase elsewhere until after you have seen his goods and learned his prices.

PUBLIC NOTICE.

To all persons occupying or claiming lots or parts of lots on the surface ground of the "Way Up" patented mining claim—Take notice—that I have title to and am the owner of an undivided three-fifth (3-5) interest in all the surface ground of the said patented mining claim; and my title is under a sheriff's deed on execution against the property of J. S. Clark, M. Gray and R. Gray on a judgment obtained in 1881, and said sheriff's sale was made while said Clark had a 3-5 interest in said surface ground. See book 8, deeds of mines, Cochise county, pages 415, 416 and 417.

I will make a deed of this 3-5 interest to those having a bona fide possession and improvements on said lots for a reasonable price.

And I give you this notice to put you on your guard against the spurious claims of said J. S. Clark, one Satterwhite, and others who I am informed pretend to have title to all of said surface ground.

Oct 29th JAMES RIELLY.

Oct 28-4t YUEN LUNG.

Politics Too Much For Him.

A lady of Fifth Avenue, New York, quickly summoned a doctor:

"Oh, doctor, my husband is nearly dead. He attended a caucus last night. He made four speeches and promised to be with his fellow citizens again to-day. But oh, doctor, he looks nearly dead."

"Has he been in politics long?"

"No, only last year. He worked hard for James McCaulay's election."

"He will get well, madam! He has a stomach for any disease, if he worked for him!"

Political life, of short or long duration, is very exhausting, as is evident from the great mortality which prevails among public men. Ex. U. S. Senator B. K. Bruce, who has been long in public life, says:

"The other day, when stepping into a car at a crossing, I found Dr. within, who eyed me up and down in a surprised way, remarking:

"Why, Senator, how well you look!"

"Well, I feel pretty well," I answered."

The doctor uttered an incredulous reply, when the Senator frankly told him, in answer to an inquiry, that it was Warner's safe cure which accomplished for him what the profession had failed to do. Senator Bruce says his friends are very much astonished at this revelation of power.—The Globe.

"Overwhelmingly defeated."
